

## Scope

- Brand new high-tech facility
- Designed for sustainability
- LEED Gold Certified
- Top notch sustainability fit out
- WINT deployed to optimize water use

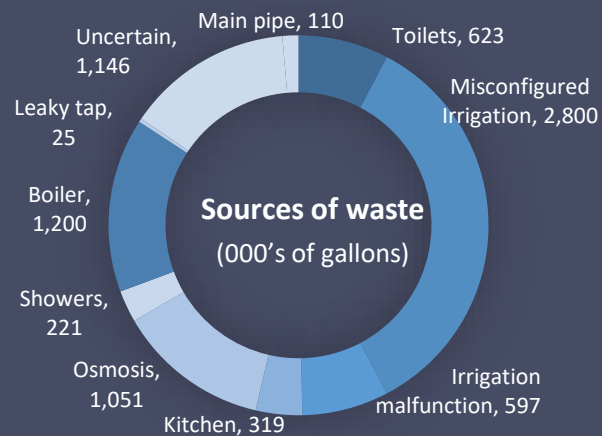

## Challenge

- Ensure sustainability
  - Cut carbon emissions
  - Reduce water waste
- Eliminate water damage in sensitive R&D site

## Findings

- Water waste issues detected across the facility post-construction
- Numerous leak events prevented

## Waste Detected, 12 months

## Success Metrics

- Environmental
  - Over **8 million** gallons saved annually
  - Consumption **down 46%**
  - Annual carbon emissions down by over **350 tons**
- Operational
  - Multiple leaks prevented **saving \$100Ks** and preventing business disruption
